

SPRING 2021

How can we begin to thank you enough for what you have done over this past year? All we can do is let you know the difference you have made to people in our local community.

You donated 22,802 kg of food and toiletries. That pretty much exactly matched the 22,398 kg of food and toiletries that we gave out to 2086 people referred to us as needing help. Thank you for your amazing response to our requests.

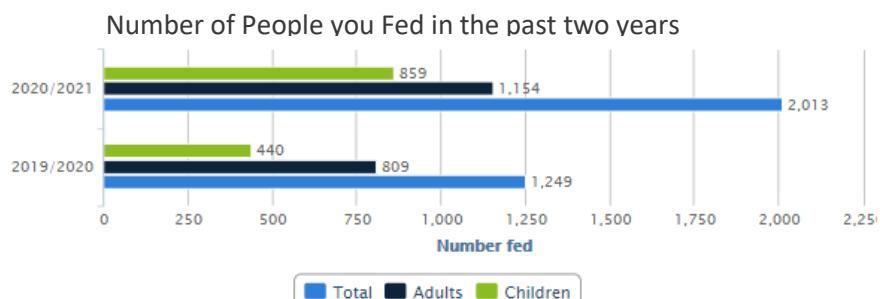

Thank you for all your financial support. You gave so generously increasing your donations by four. This has enabled us to support people with fresh meat, fruit and vegetables through a voucher scheme, which, with your help we can continue to provide. THANK YOU.

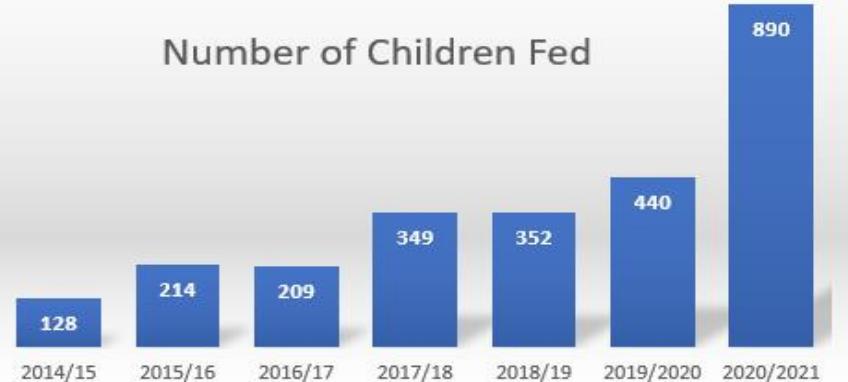

If you know of anyone struggling with food poverty in the Larne area please give them the Foodbank emergency Phone Number where one of our volunteers will talk them through the process. We are here to help.

Some graphs to show the difference you have made to people in Larne who needed help

The food you donated was supplied to 1196 adults and 890 children, a total of 2086 people. This is up from 1249 people in the previous year. The startling figure to note is the increase in the number of children fed, rising from 440 to 890. The graph below shows the continual increase in the number of children fed since Larne Foodbank began. This just shouldn't be and we want to change it.

The graph below shows the reasons people seek our help. This information is collated, recorded and used by the Trussell Trust to lobby government so that changes can be made to help people.

Reason for those seeking help in 2020/2021
